

# Air Event Information Sharing Service (A/EISS) Quick Reference Guide (QRG)

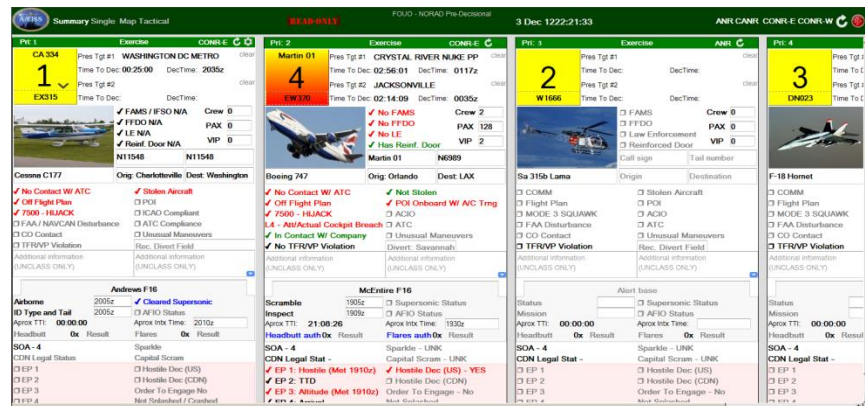

## QRG 7: A/EISS Views

Access A/EISS. Login to A/EISS at: <https://sagewind.northcom.mil/secured/AEISS>

### Four A/EISS Views:

1. Summary View – encapsulates all TOI data into one vertical column, left justified by priority.
2. Single TOI View – pairs one TOI Card with a map showing information about the intercept.
3. Map View – map information with no TOI Card.
4. Tactical View – TOI information presented in 9-Line “Alpha” & “Bravo” format.

**Summary View:** Encapsulates all TOI data into one vertical column, left justified by priority.

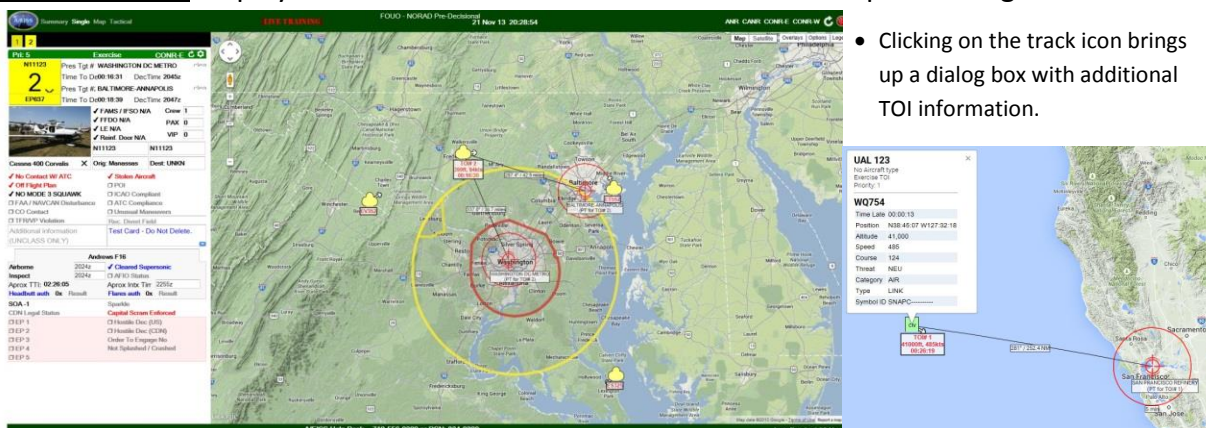

- Default View upon log in. Displays TOI cards left justified by Priority.
- Accessible by clicking Summary on the Main Menu Bar.
- Select “Summary” on the Main Menu Bar to return to the Summary View from any other view.

**NOTE:** TOI cards will stack left justified based on NORAD priority. Users can turn off priority stacking by clicking on the check box on the far left side of the bottom menu bar. When ‘Off’ TOI cards will stack in the order they were created.

**PACOM TOIs (P1, P2, P3... will always stack to the right of NORAD TOIs)**

**Single TOI View:** Displays one TOI card on the left and associated map on the right.

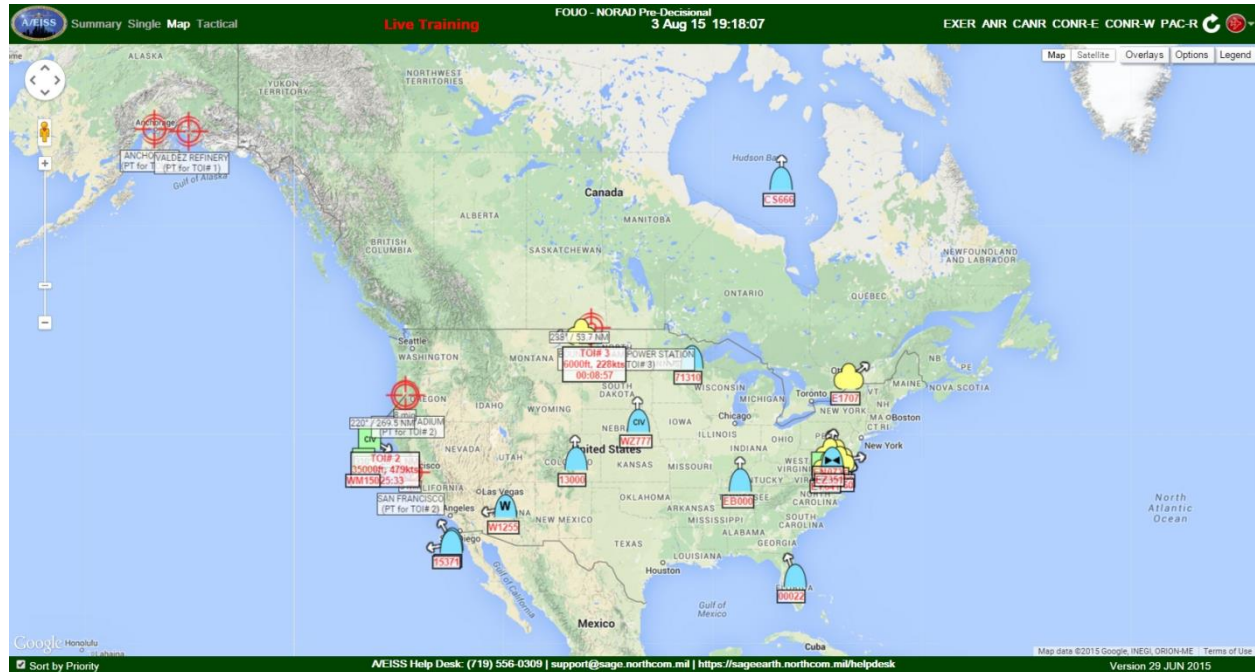

- Clicking on the track icon brings up a dialog box with additional TOI information.
- Selected by clicking on TOI Number in Summary view -or- clicking on “Single” in the Main Menu Bar.
- Map will center and zoom in on TOI. The map also ‘remembers’ the last location and zoom level.
